

Central Intelligence Agency

Washington, D.C. 20505

Mr. Harold C. King
Commissioner
Virginia Department of Highways
and Transportation
1401 E. Broad Street
Richmond, Virginia 23219

Dear Mr. King:

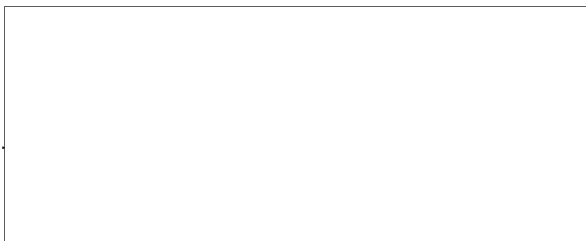

The 8 May 1985 public hearing on the road improvements to Routes 123 and 193 produced no impediment to beginning the road improvement design effort associated with the Central Intelligence Agency Headquarters Building expansion. In view of this and the unanimous approval by the CIA Traffic Advisory Committee of the improvement scheme known as Alternative #2, I would ask that appropriate members of your organization begin the project's design at your earliest convenience.

Funding for the project is available and will be turned over to the State of Virginia upon your request.

Sincerely,

Harry E. Fitzwater
Deputy Director
for
Administration
